Third Time's a Charm Rose Pressey

Charmed, I'm sure...

Halloween LaVeau is the new leader of the Underworld, but before the ink's dry on her business cards, a mysterious man appears, claiming the title belongs to him. Giovanni St. Clair declares he has proof that he's the true owner of the Book of Mystics, and therefore, the leader of the Underworld.

Halloween has reason to believe that Giovanni's motives are nothing but sinister. Not only must she defend her status as the witch in charge, but Halloween has to protect the world from a coven she inadvertently reanimates.

Sexy brothers, Liam Rankin and Nicolas Marcos, band together to help Halloween discover the stranger's true intentions and attempt to cast the reanimated coven back to the grave where they belong.

Michele says

I really enjoyed the first in this series and the second was decent but predictable. This one sadly is barely ok. The writing is good but the story falls flat and the main character is underdeveloped and a bit boring.

Kathy Elliott says

She just doesn't learn

This the third book in the series. It is mildly enjoyable. My biggest issue is that the main character, Hallie (AKA Halloween) doesn't seem to learn anything. She just rushes from one mess to the next. In the first book, it was rather humorous, but by now it's just tedious. Don't think I'll be reading the rest, because this one was annoying.

Danielle says

I read the two previous books pretty quickly because they're light reading and relatively cute, but this book was incredibly inconsistent. It was like the author forgot who was doing what. Whole segments seemed to be missing and there's a lot of useless running around. It was more confusing than enjoyable which is a shame.

Ali says

Liked it, but midway through the book I got a little confused and it felt like there was pages missing, I had to flip back to make sure I didn't miss anything. Without spoiling the story, one of the characters disappeared and became the bad guy even though there was no mention of them running off until it was said that they were unheard of for days. I felt like I missed something. But still a quick, fun read.

Margaret Hasemann says

A Convey of Covens

Very much enjoyed this one. Nothing like dealing with a coven you grew up with where everyone in it knew you as a screw-up,. Add in one from 1785, whose dress and manners are on a completely different scale. Not to mention one newly formed whose leader is from 1985. Poor Hallie has her hands full. At least her ever faithfully if paranormal fearful friend Annebelle is there at her side, along with Liam, Nicolas, and let's never forget Mom. What will happen the next time she opens the book is anyone's guess, but it's almost certain to land her In more trouble u able no matter what s he does.

Zyra says

this was so badly written. there was so much confusion. it just jumped from one scene to another, in such a hurry. instead of making it fast paced, it just became plain difficult to figure out. i was like "how & when did this happen" the narrations & mc character doesn't develop either. i rather see halloween strong and at least a little bit sure of herself. but she continues to be naive & silly.

Michelle says

Ok but issues

So I started reading this little series because of the cute idea of it. Story isn't overly creative but ok when u just want something lighthearted. My issue is more of whether the books are proof read. If so they need to hire someone new. One moment one person is driving a car then it's actually a different person in next sentence. Next line is original person driving. Things like this happen all through the series but seems to get worse instead of better. Usually things get better over time. Common things like verbs and nouns put in improperly. I know I didn't pay a lot for books but in today's world of technology these books shouldn't be a hot mess, especially with having 4 books in this series and quite a few other books.

Pam says

Discrepancies

There are way too many discrepancies in the Cozy Witch books. Names change, locations change, her timelines have no rhyme or reason. First an event is three days away, then it's one day away, then it's two days away. Stuff happens that is never explained, it's just left hanging. The author needs a better editor/proofreader.

Sherri Dub says

I felt this was the weakest book in the series, thus far.

It's so hard to read a book that is fully explained, as if it's for children, when it's categorized as adult paranormal fiction.

I love the character (Halloween) no doubt. But, she needs some work in the structure of the plot. Her ideas, complications and even her set-backs are explained to death. Every single step or direction she goes in, the author is sure to tell us the back story and the needless details from the previous two books.

I love this author's imagination, but the writing skills need work.

Anna says

So I read books 1, 2, and 3 in a row and unfortunately for me, they did not get better as they went along. The characters make decisions that make no sense book after book. Their premises of stories could be good, but the actions of the characters in the books make the plot a bit lack luster. I don't think I'll be finishing the series.

Eunice Korczak says

Third Times a Charm

This is another highly entertaining episode in the LaVeau series. This one was obviously written with little rereading, which is a shame. Since the story is fun and funny, disorienting lack of attention to the details is objectionable. A person is on the porch and after a bit of conversation and no mention of moving, he is now coming up onto the porch. A person is inside and again without leaving the house, he is now entering the house he is in. Disorienting!

wendy says

Disappointing

I loved the first 2 books in the series. This one however, did not meet expectations. The dialogue was stilted, the plot very immature, the repeated bad spells boring. The high point was 1785 coven. Those ladies were funny

Lucy King says

Oh well, I wasn't sure what to think about this, first book was okay, second book amazing, here I was a bit confused, everyone driving around chasing each other but in the end it was interesting and I liked to learn a bit of the coven history. And I just like Halloween, I feel so sorry for her sometimes :D so many problems, she sucks at magic and happens to be the leader of all the paranormal people, but she is funny and just cute. So I am definitely looking forward to the next book even though this series is not that great but enough to spend some nice relaxing time reading about witches and that I love.
