See How She Runs Janice Kay Johnson

When it's never safe to stop running...

Cape Trouble, a tiny Oregon Coast town, was named for the dangerous off-shore reefs. But some of its citizens seek refuge from their own troubles...which have a way of following them.

One night, in her upscale California restaurant, Naomi Kendrick overheard powerful men plotting a political assassination. To save her life, she made a bargain with the devil...and then ran.

Inevitably, she is found. More than one enemy descends on Cape Trouble to learn her secrets...and silence Naomi once and for all.

Detective Adam Rostov suspects she stabbed his partner to death in her restaurant kitchen. Pursuing her to Cape Trouble, he arrives just in time to rescue her from an assault. He conceals his real purpose in Cape Trouble to stay close to her. Because if he can't keep her alive, he'll never find out if she's innocent or guilty.

Naomi's instincts scream, Run, but too late, because Adam isn't about to let her go. Not when he has begun to believe she is a victim and not a killer. Not when she is irresistible bait to draw a contract killer, a corrupt U.S. Congressman, and a crooked federal agent. And not when, despite all common sense, he's falling in love with the mysterious chef.

Once Naomi discovers Adam too has been hunting her, she must decide. Run and keep running, or trust him to keep her safe? Of course, once he knows her darkest secret, he may no longer want to protect her...

M. Winkler says

Kudos to Janice Kay Johnson for another intriguing romantic suspense story in the Cape Trouble series. Intelligent, well-written, and subtly sexy -- this is a must read.

Miriam Simpson-Preugschat says

Great read! I love her trilogy's.

I would of given her five star's, but I hate where she left it.....unclear where to go. Definitely worth reading!

Kay-em says

Better than book 3 (which is what I started with) but only just. The story is promising but the telling is not. The characters spend too much time in introspection and there's really not much action. As a result, I schemed through much of it.

Tbabe001 says

Love Adam and Naomi together, great chemistry.

Opinionated and Brutally Honest Reviews says

Not much happened. It was mainly their thoughts and then saying what happened after the fact. I hate Adam and his manipulation in the beginning and still found him to be pretty gullible in the end. But he made up for it which is why he isn't in the 'hero is a douche' category. In the beginning Naomi was TSTL but then she seemed to get it together. The last half definitely makes up for the beginning.

Sparkymom says

Nice story

This is the first book I can remember reading from this author. It started out a tad slow for me, but it picked up quickly. The story had plenty of action and the romance developed over time and was very realistic. Even though there is a book in the series before this one, I was not lost at all. I was, however, motivated to check out the first book since I really liked the sheriff who was featured in it.

Rose says

JKJ is quickly becoming one of my favorite authors and this book just added to that. A slow building romance, suspenseful plot and complex characters are just what I've come expect from her and this book is no exception. I loved how the hero and heroine are vulnerable and strong all at once. I loved the Angel Butte series and I'm loving this one too.

GayLauren says

Another absorbing romantic suspense story from JKJ . This one, like Shroud of Fog, is set in Cape Trouble and is about Naomi who runs the local cafe. We find out what happened in the past to cause her to leave her previous life behind and what happens when the past catches up with her. JKJ always has believable characters and the romance and mystery are well written. Readers who like JKJ's books and fans of romantic suspense will enjoy this book.

Jen_C says

I was a bit disappointed by this one. I guess I expected a lot more from the reviews. I wanted less descriptions of daily stuff (i.e. what they ate). Still a pretty good book though.

Quote:

“But I haven’t known how far I can trust you,” he said. “I’m pretty sure I want more than a couple of nights in your bed, Naomi. What I want...takes trust. On both sides.”

This longing cramp was centered under her breastbone. She had to ignore it, too.

“Then you shouldn’t have started anything. I don’t think I know how to trust. It’s...never worked out that well for me.” She hated knowing how pathetic she sounded., but she’d already told him too much about herself the other night.

“I don’t believe that,” he said softly, his gaze laser sharp now. “I think you’re scared because you trust me.”

Sarah says

I had to wait a bit longer for this books release then what was originally announced but it was well worth it. Adam and Naomi's Cape Trouble story was packed with suspense and romance and Johnson is continuing on the writing path that I see her going down in this area. This was a great book that I highly recommend. It was also nice to see some returning characters from the previous book even though this is a total stand alone.

Coral says

Plot: 3/5

Characterisation: 3/5

Prose: 3/5

How much I enjoyed it: 4/5

Brenda says

Absolutely loved the storyline, probably more than Book #1, but the abrupt end....and I mean abrupt left me no choice but to rate this book Four Stars. At least we had an epilogue in Book #1. I feel we didn't even get a closing chapter instead an ending paragraph.....major bummer!

Sherry Haynes says

See How She Run is a suspense romance story about Adam and Naomi. Can they develop a lasting relationship while one is running scared and the other is fighting for the truth? It is interesting how this story plays out. Kept my interest all the way through.

Note: I haven't read the first book in the series but wish I had. I believe it would have given me a better understanding of other characters but it is still good as it is. Looking forward to going back and reading the first book.

CJ says

Great mystery, lots of suspense and a wonderful set of characters. The story just draws you in and keeps you there.
