**Clouds of War** Carol M. Vaughn , Erica Crouch (Illustrator)

Arianwyn is queen. And even though it's not perfect, it's better than her life as a peasant ever was. She's surrounded by people who love her and she's safe in the Keep.

That safety is shattered when Rael's dragon, Charon, is kidnapped.

Now she and Rael must leave the kingdom to find Charon...and return before the enemies within can destroy all they've worked to build.

## From Reader Review Clouds of War for online ebook

### Marvelous Morgan says

I like the story. I don't like the editor.

The story was wonderful, because we got to learn more about the world that Carol Vaughn created. BUT the time line jumped around a LOT.

It was difficult me to create a timeline in my head b/c it seemed like one thing happens right after the next and mths would go by without a break in between the sentence structure. It was confusing and made the book difficult to read. This happened in the first book as well, but at least then everything was in one point of view.

I liked the multiply points of view shown from different characters, but I also felt like the way the characters were written took away from the story. This happens b/c we don't have one main character anymore. For me this made the second book less exciting because we see things from Arianwyn's point of view then Alyssa, Rael, Ethelinda, Bernie, and many more characters. This made the focus jump around and sort of made the story more blah (kinda generalized the story).

I think the story needs to be revised with a good editor. Having said all that, I liked the story in general and would be interested to see how it finishes.

Reviewed by Marvelous Morgan ~(=^?^)\_?

### Sophie (calkatsop) says

*“Aren't you going to seduce me?” he finally asked. Arianwyn shrugged. 'I don't really feel like it.'”*

This book was adorable. It was filled with Rael and Arianwyn fluff, and there's a sort of subplot of not being able to produce an heir. This book, like the first, struggles with under-explaining things, but to a lesser extent. That might be because this book was just less plot heavy. It felt a bit more like a novella in between a book and it's sequel rather than a full fledged sequel. That wasn't so bad though, as it was simply adorable. Arianwyn and Rael's relationship is expanded on and deepened, and it's fluffy and adorable. Though I would've expected more from a sequel, this book wasn't bad. I hope for more plot and explanation in the next book, and I'm looking forward to it.

### Megan Moyer says

**Woa. I want more..**

Awesome. Wished book was longer. Feel like im left hanging. Amazing story. Can't wait to get the next one. Yay

---

## **kimberly goodfield says**

### **Great story for kids...**

Good story for kids nothing too bloody or any sexual scenes fairy tale like the good guys always win always

---

## **Brian Chan says**

### **Pretty good read**

The only thing I disliked was the giant time leaps. I mean four years and it seems like during that time nothing really happens. Then a giant cliff hanger at the end. So I have to wait months for the next book. The last two chapters happen way too fast and just left too much unanswered questions.

---

## **Cher Mahoney says**

### **Good read**

Awesome read. Goes fast through time frames and of course a cliffhanger at the end. Can't wait to see what happens next.

## **Bonnie Eernisse says**

my review may contain spoilers FYI...

Game of Thrones baby sister.

4.5 stars

I don't usually write reviews but when I come across a book I thoroughly enjoy and see others have left bad reviews it spurs me to defend it. I read the reviews and it made me hesitate in starting it - but I did not come across any of what the reviewers complained about.

Maybe this book is just right up my ally , perfect for ME as I cant see how others have faulted it.

I believe an author with any measure of talent and skill doesn't need to bother adding sex scenes, those who do add unnecessary scenes must have a watery story line and need time fillers imo.

which is just one reason I loved this book- I didn't have to skip ANY scenes or pages! There was no dribble like he touched her .. she touched him.. ooo ahhh.. explosions! blah blah zing zing ..yawn!

I skip over that rubbish to get back to the story - this book is ALL story.

Those saying its hard to follow - that the plot jumps around too much ,well I cant comment for why they had that struggle because it was pretty clear n simple for me. I enjoy books that each chapter has a focus on different characters and their story and having them all intertwine.

my only issue was in the beginning of the book those first 4yrs with Queen Arianwyn were skipped through to catch us up , I feel the author could have either just started at "...four years later.." Or given those 4 years a prologue summary. but its still worked out all fine even with the wonky start.

in Book 1 we did go through a lot of character building and so we see in book 2 the worlds and kingdoms open up and the story develops quite fast.

The best way I can describe this book is that its like Game of Thrones little sister - there are feuding kingdoms and families, people trying to kill each other left and right, there's chemistry and love, friendship and loyalties. Each kingdom has a totem which is a mythical creature like dragon , manticore , there's wolves and mages and all kinds of beasts. Personally I wish GoT had this element! Similar to GoT - someone is trying to over throw someone else while others are on the brink of war and trying to find alliances.

I Look forward to book 3 AND I honestly hope the author decides to do some Novellas on the Dragons as I loved Charon and Parvati's sassy personalities, and would love to find out moreon the history of the Manticores and other kingdoms totems.

### **Christine Jeffers busser says**

While I think this has a really great story line, I just feel like there was so much missing from this story. The story itself skipped a lot of detail and was lacking in character interaction - hard to believe these are people that have spent 4 years together...
