**Pleasure to the Max! (Harlequin Blaze #414)** Cami Dalton

Cassie Parker's globe-trotting great-aunt has sent her a Gypsy "lover's box." All she has to do is write down her most erotic fantasy, tuck it inside the box and presto! Her own personal sex genie will appear. Right! So Cassie is totally shocked when a gorgeous stranger does show up. And she's even more shocked by the things she wants to do with him....

Treasure hunter Max Stone isn't amused. His latest treasure has been swiped and he's followed it to a dusty little antiques shop in the States. Surely one woman can't stand in the way of his retrieving the priceless lover's box? Little did he guess that he'd have his hands full (literally!) with sexy Cassie. Or that he'd have to hold off on locating the box until after he located his clothes...

This book was funny, quirky, sexy, and a great ride. From beginning to end I rooted for the Hero and Heroine, and was completely blown away by the originality of this story. Loved it!!!

The only thing I wish was different is the part where Max feels a burning desire to \*make love\* to Cassie. This is partly because that was Cassie's last wish, and partly because he had THE revelation (aka: I'm in love!). But the Author chose not to write in detail what happened during that love scene. Don't get me wrong, I don't require a sex scene in every chapter of a book, but when you have such a momentous occasion happening between the main characters I thought you would want to really put it all out there- share the love (so to speak). The one sex scene that was more about the emotions that are shared between two people than about quick and easy sexual gratification, and its left out of the book. A little shallow, no?

But all in all a really good read. I really enjoyed it!!!

Yikes... very, very hot, and very well-written to boot. Totally sizzles. Make that six or seven stars, this one is that well done.

### Sammy says

The heroine was silly, the situations hilarious, and the hero was hot for the heroine. An enjoyable read.

Had a tough time sticking this one out (why did I?). I guess Erotic Comedy isn't my thing.

Wow, this has got to be *the* hottest HQ Blaze I've read so far! Not that I've read that many but, boy, none of my previous Blaze reads came close to this one. Seriously, the heroine was almost a sex-driven maniac, and

the hero was more than happy to oblige, of course. ;) Halfway through the story, I started to wonder how the heck they managed to keep it going like that. Not. Humanly. Possible! (LOL)

I won't write a plot summary here because, frankly, it is completely unbelievable and I didn't care much about the whole "treasure hunting" thing. The "lover's box" that had the power to fulfill any woman's sexual fantasies and held the key to a lost treasure was just a prop to get Max and Cassie "up close and personal". I wasn't really into the story in the 1st chapters, Cassie came across as too ditzy and harebrained, and I was as "lost" as Max, who couldn't make any sense of the things that came out of her mouth. Then I decided to just suspend disbelief altogether, relax and enjoy the ride. The fact that Cassie kept controlling Max's libido with the help of the "lover's box" seemed a bit unfair to me but, WTH, he wasn't complaining so who was I to find anything wrong with it?

All in all, this was a very funny and hot - have I said that yet? ;) - read, but I'm not sure I bought the HEA. Max and Cassie were definitely in lust with each other, but love? I don't think so, they didn't spend enough time out of the sack to be in love by the end of the book. Anyway, I do believe they will be having "wild pagan sex", as Cassie calls it, for a long, long time. ;)

I really enjoyed this book, though Minerva was my favorite character.

### **Fairyposs says**

Very funny. enjoyable if you're in the mood for hot, almost slapstick fun.

### **Taria Reed says**

I really enjoyed this story. It wasn't perfect, but it was very entertaining. I loved the back and forth between Max and Cassie. What I wouldn't give for a lovers box of my very own....lol.

Story - 4  
narration - 4

the narrator, Drasti Kane (sp?) did a really great job. I wouldn't mind listening to her again.
