## No Mercy Jaid Black

Giselle McKenzie trembled inexplicably as the sound of a low growl reverberated throughout the threads of her consciousness. She knew it couldn't have emitted from her date, the man sitting across from her in the quaint restaurant. Yet every time he placed his hand over hers, she heard that eerie, primitive growl...

### Amy says

Rem and Giselle's book. You get to know more about Rem and his affliction, the devolution. Most of the book takes place as Rem and his new sacred mate, Giselle are traveling back to his home on Sypar, one of Planet Tryston's moons in the Trek Mi Q'an galaxy. Rem and his small band of warriors, joined by his friend Lord Death, and a bound servant Yoli, and along with his new sacred mate, Giselle have mechanical trouble with their spaceship as they crash land on an unfamiliar alien world filled with predators. Then they go through a portal to another world in the 6th dimension, that Rem has been to before in the past. They are trying to make the long trek to a portal that will connect to the 7th dimension (Rem's home dimension) so they can celebrate Rem and Giselle's marriage and coupling with the rest of the royal Q'an Tal family. We get to check in with Rem's brother, Emperor Zor, and his wife Empress Kyra, and their children, especially their daughter Kara who is due to have her coming out party at age 18 but still has seven years to go to be fully mated with her betrothed, High King Cam. Also her brother, High King Jor is of age to receive his harem. Rem's brother King Dak, and his wife Queen Geris, and their children make an appearance as well, and their brother King Kil, fearing for their lives, sets out with a hunting party to aid in his brother and sister-within-the-law's safe return. The epilogue sets up the next book's story for Kil in book 3.

Not as good as the first book. Here the heroine is carried around in a papoose and seems permanently impaled on the hero who seems to need to have sex almost constantly less he devolves. Erm, it was all quite entertaining though.

I have to say this is my least favorite of the entire Trek series. I'm willing to read about of far out, unconventional practices but the women are treated quite horribly in this book. It's really degrading and I don't care for it. The woman at the center of the book is practically naked most of the time. She has to have sex in public because well that's just how things are done on this planet. She has very few rights of her own. Also, what's with Jaid Black's heroes? They are nearly always over 7 feet tall and enormously muscular.

This comment is aimed at this book and the other books in the Trek Mi'Qan series - I also have a problem with how convenient it is that these Sacred Mates from Earth have no close relatives or friends. It would be nice if the author wrote about at least one woman who had living parents or siblings who meant a great deal to her. It seems like all the human females have no close ties, no kids, no one that would truly miss them when she goes to the planet Tryston.

Jaid Black takes the whole alpha male thing too far. I don't mind alpha males, but these males are far too controlling and domineering that it's not sexy at all.

**NO MERCY** was nothing like the first book in the series, *The Mistress' New Clothes*. This book seemed emotionless to me in a way. The hero and heroine were "meh", didn't care much for them and the whole book seemed okay and boring. I liked the first half of the book, but the second half was harder to get through.

Rem is even more dominant than the hero in the first book, Zor. And he seemed to be a little too cruel to Giselle. In a way sometimes he could be sweet and hurt which I loved those scenes in the beginning, like he has this part of him that loses control but when he sucks on the heroines boobs it all goes away.

But there was this one part of the book where he forces his submission on her a lot, where I wish these males would just understand, their mate is coming from a whole different world and they need to be patient with her. And I hated when in this new village the rule was women had to be nude and in public the male had to have her in a leash and chains like a dog.

That part I think is ridiculous and I get the storyline and the theme, but it is totally degrading women and I had a huge problem with that! It seemed the more I read the worse **NO MERCY** became. I may or may not give one more book in the series a chance. I don't really know at this point. I totally get that it's erotica and whatever, but the last book had way more of a storyline in my opinion.

2nd time reading this one and still liked it. Though I was getting a bit confused with all the different names and the interweaving stories. It would have been nice if she did this with one book per couple. I loved how the Rem shows off Giselle's freckles or 'spots'.

This book has explicit sex scenes. So no under 18 teens or kids reading it! Hell, I wouldn't recommend it to adults either.

It's sad when you see a series that has potential to be so much more. This futuristic sci-fi romance erotica would've been interesting if there was more world building and less relying on everything relating to sex. Boring, repetitive sex at that. I find it hard to believe that a woman can have a man have sex with her for days with no break and NOT be sore. Especially while hanging in a papoose like thing while he walks. Ugh! Very unattractive sounding. Hell, most of the stuff in here didn't work for me as the relationships were definitely an alpha male with a submissive female. Usually, I don't have problems with that in a story as long as it is clear that the guy loves her and respects her. I never got that feeling. The gals in this story are all treated as sex toys. Supposedly, there is great feelings, but I never seen it or read it. Plus, I find the whole kidnapping a gal and then initiating sex when she is scared as to close to rape despite the fact that supposedly she is enjoying it. If a person says no, it means NO. A hero or heroine should not be willing to rape someone in a story of romance in my humble opinion.

The idea of a woman being kidnapped by an alien and learning about another culture and somehow falling for said alien...I am fine with that. I just don't think the author really did a good job on building the story or relationship.

And as an erotic read which is what the focus is supposed to be from what I see on the official site, it all read

the same. Every sex scene including book 4 &5 that comes after this. Yes, it could be counted as kinky as you have the f/f/f/f or f/m/f. But it all read the same and there was no emotional connection so it came off as flat. Like I said. Very boring. I don't recommend on a romance, sci-fi, futuristic or erotica read. I already traded it in today as soon as I could.

# 2 in the series  
Rem and Giselle are main but of course we run into previous characters.

Rem after the Jera facade is slowly going mad and without finding his true Sacred Mate he will devolve into a basier animal instincts. Bascially a killing monster and the most feared fate of Tystonians who don't find Sacred Mates or lose them.

Giselle is from present Earth day Australia on a date hoping to lose her virginity when of course Rem finds and claims her throwing her into a whole new world..literally.

So seven foot tall "alien" warrior and a human virgin female who is trying to adjust to her new life. Plenty of tense moments, funny moments, and of course sex orgasm sex and did I mention orgasms.

The author does a wonderful job creating different dimentions and characters that it is hard not to dive in and get lost in this whole new world. My favorite part of the story is how Giselle "handles" Rem's bouts of madness. It still makes me smile and giggle.

There's prolly more I could say but honesly I just jumped into the next book and trying not to mix them up. I highly recommend this series to erotica readers who enjoy plenty of sex, non-stop orgasms, hedonistic "aliens", and much more.

I suggest reading the first book The Empress New Clothes to fully enjoy but the author does do a good sum up that may or may not have you as confused and lost as Giselle at first.

### Good quick book.

While there was some high handedness in this book that was over the top, it wasn't as bad as the first book (I'm probably getting adjusted to series!), but Giselle did stand up for herself alot and started the way she meant to finish. Rem's issue cleared up quickly book wise which helped in decreasing the over abundant male dominance of the series. I like how she interweaves other characters from past and future books. I like that Gis is from Australia and Rem saved her dogs as well!

Siguiendo la línea del anterior, solo que en este pasaron cosas que incluso para mí, que suelo aceptar fácilmente cosas sin mucho sentido en mis lecturas, hubo cosas aquí que yo me quedé un poco WTF! jaja. Igualmente la recomiendo.

2.5 stars

The second book of the series features King Rem Q'an Tal, the youngest brother who was married to a woman in the loveless marriage. Now must find his sacred mate because his way to becoming beast.

Rem finds his true mate in Australian virgin girl shows Giselle. Giselle has freckles or 'spots' and Rem loves them . But the tall warrior is even more dominant from his brother and emperor, Zor. and sometimes he seemed to be a little too cruel to Giselle, he is " without mercy".

## Brutally Honest says

So, even with the stupid sexual assault and kidnapping, and all the misogyny, I still basically enjoyed this book. Mainly because everyone, myself included, knows what Jaid Black books are all about, and is mentally prepared when reading one of them. My favourite part? The threat of the hero's devolution. Yum.

mmmm, it was okay?!

Found the underlying story alright, but the male-centric society just annoyed the crap out of me.

#### **Loved it!!**

This series was a lot for me to take in because of the highly sexualized nature of the cultures the characters live in, but I love it. There's a distinct freedom to every interaction between Rem and Gis. I especially loved the whole saving Rem from becoming a beast thing as well! Just an all around great read.
