Heroine is broke, hero offers her a deal, marriage and giving him and heir. The heroine will have a baby, then give him or her up at the age of seven. Although the heroine knows she would love her baby, she knows this is her only chance. What they both don't count on is falling in love with each other and having the villain trying to kill the heroine and baby she is pregnant with!

Don't know why it took me so long to read this story, it was great!

Great "marriage of convenience" story with some drama and suspense. The heroine couldn't stop telling the hero how much she hated him but at the same time lusting after him and the hero was so tender and loving I wanted him for myself! The OW was so crazy it was beyond entertaining!

Fantastic, sweet and detailed epilogue. Nice to see Rafael embracing fatherhood. Left me with a big smile on my face!

The heroine (Danielle) annoyed the hell out of me. She makes a deal with the hero (Rafe), to marry him, provide him with an heir and he in turn will ensure that she and her mother can once again live the cushy lifestyle they had before losing all their money. She agrees and immediately upon placing the ring on her finger, Rafe releases the funds and she in turn immediately starts bitching in his face about her end of the bargain and trying to get out of it.

Danielle is not a child, she's a woman in her 20's who understood exactly what her end of the bargain entailed but she has such a princess mentality that I swear she thinks that Rafe (who wasn't born with a silver spoon in his mouth like her but worked for his fortune) should simply have been grateful to hold her hand occasionally for the privilege of handing over vast sums of money.

I was cheering for Rafe in this book. I really liked the way he didn't let Danielle's tantrums and sulks stop him from making her keep her end of the deal. Of course they eventually fell in love but I didn't feel any sympathy for her before that point. She knew that giving him an heir meant she'd have to have sex with him. She knew that going into the deal beforehand and she certainly liked the lifestyle his money gave her and her mother afterwards, she just didn't like having to keep her end of the bargain to which I thought "tough luck lady, you can't have it all your own way!"

Another quick read with very minimal character and story development.

You know exactly how this story would go right? There was some scary moments here and there no thanks to a scary ex, but otherwise the same story formula and same old characters.

At first Danielle seems too cold and posh for the hot blooded Rafael, even though he is doing a lot to help Danielle and her mother retain their apartment and return to the grace of society. But of course Rafael is up for the challenge and knows exactly what he wants...which we all know he will get.

I think this has to be one of the most vile exes ever. She was true evil and even went as far as to trying to hurt the h physically. I was stunned the first time I read it. I loved the book though and I loved the hero. He never ever gave her reason to doubt him or think he thought about the ow at all. Maybe he wasn't in love with her at the beginning but he was close to it. The heroine annoyed me though. He steps in and saves their business and their lives and she treats him terrible. I got so sick of her attitude. She should have been kinder I think. I know he wanted her to give him a heir and that she was angry over it but she could have said no. He was saving her and her Mother and giving them back their lives. And as point of fact, he never said anything about leaving after the baby was born, she was the one who brought it up. But then maybe that is why I am not a Harlequin writer. He definitely was hot to me and I wish I had a man that was that powerful and loved me that much. This is one of my favorite books and I love reading it when I am feeling low. It't not the best

this was awful! it was a pain how their daily chores/activities were described. simply too boring ! the evil OW plot was cliched, used so many times n here it was even 2 the point of ridiculousness.

A short and pleasant read.

Rafe offered to marry Danielle in return for an heir. He'd clear her mother's debts and helped restore their lingerie shop.

Rafe went from enemy to lover very quickly because of his actions...it's frustrating when Danielle acted childish, be it hitting Rafe or hurling things at him.

The so called Other Woman was too easily dealt with. ..why bother to give her a chance to flee when there's enough evidence to put her away for her crimes?

The weird thing about Helen Bianchin books is they can read a bit stilted and strange, like the mundane details of their daily routine, what they had for breakfast, what they did at work, where they shopped and exercise...somehow it was still interesting to read on hehe. ..
