so, I saw this book and I was like hmmm, this looks interesting, so I read it, then I did again and that was it, this book became my favourite, it was real good, I enjoyed every story and that hide and seek moment from the cousins was my fave, genius, idk I love this book.

D'andra says

Loved this book. It is always pleasing to read Caribbean stories. I didn't quite understand The Teddy Bear contribution though. I enjoyed Backfire, Ramgoat Salvation , The Kite and The New Teacher. The New Teacher highlighted a great lesson of appreciating our culture and and unique language. "Wha' all yuh want wid white people country and white people language.?" (p. 70). Beula from Backfire was a great character.
