Soul Mates

John R. Little

Soul Mates John R. Little

Identical twins share a connection that even modern science doesn't fully understand. Closer than mere blood can bind, deeper than any sibling bond, one cell, one mind, one beginning.

Alannah Clark has found the man she wants to spend the rest of her life with. A magician – but magicians have secrets – secrets that might outweigh Alannah's own dark corners. But nothing remains hidden forever.

Magic, thrills, romance, suspense, and sorrow are the emotions of John R. Little's newest and darkest thoughts. Fans are sure to get a thrill ride as he unleashes his newest adventure.

Christopher Payne says

Identical twins share a connection that even modern science doesn't fully understand. Closer than mere blood can bind, deeper than any sibling bond, one cell, one mind, one beginning.

Alannah Clark has found the man she wants to spend the rest of her life with. A magician – but magicians have secrets – secrets that might outweigh Alannah's own dark corners. But nothing remains hidden forever.

Magic, thrills, romance, suspense, and sorrow are the emotions of John R. Little's newest and darkest thoughts. Fans are sure to get a thrill ride as he unleashes his newest adventure.

Kim says

I really liked this book and it's twists. I kind of had a feeling near the middle about who the twins really were but when it all comes together and there is a bit of a reveal it was still a surprise. I thought the pace of the book was good. I do enjoy a real good and deep description to get the feel of the characters so I could have used more in that sense.

I believe this is the 2nd book I have read by this author and it definitely will not be my last!

I received this ebook through LibraryThing Early Review giveaway for my honest review which I have provided here. Thank you

James says

Disclaimer: This book was received for free as an advanced reading copy through a GoodReads' giveaway. I'm going to try and keep this as spoiler free as possible. This book is very all over the place. You know how when you're reading a book, and you think, "God, where was the editor on this thing, it's too long?" Well, I felt the inverse and that this book was overly edited. I figured out the main twist early on, so I wasn't interested in a lot of that. However, the supernatural element felt entirely tacked on, or overly pruned. I wanted to know more about that. Either way it made little to no sense, and should have been jettisoned. Other parts, such as the main character's father should also have been given the boot. I would have given it a 2.5 if I could, but I rounded down due to the overly graphic sex scenes. I'm no prude, but this also felt out of place and jarring. I think I know why the author/editor/whoever made that choice, but it didn't work for me. Overall, I felt there was a lot of potential in this book, but some choices were made that just made me dislike the final product.

Bailey says

This is what I wrote for my mid book update

I started this book probably about a month ago. I got this to review but I have been busy and I have tried to

pick it up a few times. I'm about half way through it and it has been kind of slow, but it is an interesting story.

Overall, it's not what I expected. When I read the synopsis I was really excited to read a thriller, mystery book. But that's not what actually happened. It's not as creepy or suspenseful as I hoped and even thought it would be.

It was a good book but slow for a while. I will stand by my interesting story comment. It really was interesting, but I found it kind of confusing with the time jumps.

I was mixed about the ending. I think Little did a great twist. I was never expecting that and I had no clue until the end. My only problem is I was kind of confused by the last page or 2. I'm not 100% sure what happened but it was good.

Overall it was a good book. It was a fast read once I got into it. It was dark but not as suspenseful as I thought it would be.

Frank Errington says

Review copy

Soul Mates begins with a tragic day in Nowhere, Minnesota and a genuine OMG moment. As a father and a grandfather, I can honestly say there is no worse feeling than being totally unable to do anything in a dire situation which ultimately results in the death of a child.

It's nine years later when we are introduced to twins Alanna and Savanna Clark who run away from home at sixteen to get away from a life where their mother was killed by their father who is in prison for life.

Parallel to this story-line is the tale of Jeremiah Moore whose life long ambition is to be world class magician . Eventually Alanna and Jeremiah's paths cross in Seattle, Washington. Along the way there are numerous oddities which don't seem to make a lot of sense, but eventually it all comes together in a most unusual way. So much so, that I may have to read this book again later, just to see all the clues I missed.

Despite the title, Soul Mates, is not a tale where the characters live "Happily ever after." As a result, I think the author has given us a much better story. It is a book you need to be involved in. It's not a casual read. I wouldn't recommend reading this one in an area with a lot of distractions.

Soul Mates is one of those tales that looks like it's going to be about one thing and then throws you a curve ball you never see coming. It's is currently available in both paperback and e-book formats from JournalStone.

Recommended.

John R. Little is an award-winning author of suspense, dark fantasy, and horror. He currently lives in Ayr, a small town near Kitchener, Canada, and is always at work on his next book. John has published 14 books to date, including Darknet, which came out about a year ago and takes a frightening look at the dark side of the internet.

Mommacat says

John R Little tells the story of identical twins Savannah and Alannah in the way that only he can. The story starts slowly and builds engrossing the reader in the twins' life. But watch out for John Little - he has plot twists and turns that double back on themselves! This master of dark fiction has done it again. I highly recommend you buy SOUL MATES now!

Glen Krisch says

Time, memory, identity. Little writes about these themes like no other author. A quick read, I kind of wish it was longer. Guess I'll just have to wait for his next novel/novella.

Polly Krize says

I received this book from LibraryThing in exchange for an honest review.

The relationship between twins is deep and complicated. As twins Allannah and Savannah find out in this suspenseful story, filled with plot twist and a bit of romance thrown in for good measure, life has many curves. In my opinion the character of Luke should have been more developed and much more a part of the story.

Leah says

For a select group of readers, I'm sure Soul Mates will thrill and entertain. For this reader, sadly, it did not.

The fact that the prologue forced me to consciously suspend my disbelief was disappointing but not a dealbreaker. (Killer jack russell terriers - really?!) And it wasn't the only time I had to suspend my disbelief either.

The fact that I knew the first twist right out the gate - in chapter two I suspected; by chapter 7 I had zero doubts - was mildly disappointing but not a dealbreaker.

The fact that Jeremiah continually described Alannah as quiet, gentle and fragile - all three traits of his dream girl - was absolutely maddening. I get it; the stereotypical male fantasy: beautiful, skinny, quiet, fragile, needs rescued, needs taken care of. But good grief, at one point I thought I might throw the book if Jeremiah said "fragile" one more damn time.

All in all, the story was face-paced enough that the book survived without injury. The biggest disappointment? I liked (what I would consider) the real twist of the book - Luke - but his story was over almost as soon as it was gettin' good.

So yeah, Soul Mates will probably go over best with people looking for a page-turner with some mild sex and violence. Especially men in their forties who dream of meeting "the One" and her being barely twenty,

beautiful, skinny, quiet and blah, blah, blah. If only the dynamic with Luke had been more predominant in the overall story...

2 stars

Received trade paperback from the publisher in exchange for an honest review.

Sheri says

Soul Mates by John R Little

Allannah Clark has found what she feels is the perfect man. He is a magician, 20 years older and very mysterious. She wants to spend the rest of her life with him. But her identical twin Savannah is not thrilled with Allannah's choice. They have always been close, closer than normal. Will Allannah be able to have the happy life she so desires?

A fast paced (dark) psychological thriller. Allannah is very meek, naive and innocent in all ways. Savannah is the exact opposite, out going, experienced and not afraid to live life to the fullest.

Filled with many secrets, twists and turns, I was at the edge of my seat. The characters are complex and plot is very original. I was hooked from the first page. Those who like a good psychological thriller with a bit of romance should enjoy Soul Mates. (I recommend to readers 18+).

*I won this book on Library Thing

Sarah Jackson says

A really interesting story. easy to read and great character development. Watch out for more offerings from this author.

I can't tell you much about the plot without giving away the super plot twist, but "Soul Mates" really has the lot: Murder, drama, family dilemmas, sex, romance, twins, a magician, and a creepy dead kid who crops up when least wanted. "Soul Mates" sucks you in and takes you on a wild ride.

Mimosa says

This is my first time writing a review for Goodreads, so please forgive me for any spoilers. I will try my best to avoid them.

This was enjoyable, and was the perfect read for Halloween. The author John R. Little did a great job of

setting up a creepy atmosphere and while reading this I even had weird dreams. So if you are in the mood for something creepy this book would be a good one to pick up.

There are some interesting themes in this story as well. It will make you think about family, relationships, and what it means to have what you want. The characters are all well developed, and the story was very engaging.

The romance element complimented the spook factor nicely, and the author managed to balance them nicely.

Warning this book is definitely 18+.

The only complaint that I do have is that there were some small editing mistakes. The publisher or editor should have noticed them before having the book printed. But other than that I would definitely recommend this book.

Karen Treadwell says

I received Soul Mates from an Early Reviewers Giveaway. It was a quick read. The story is about twin sisters who are identical in looks but very different in personality. Their father murders their mother and at the age of 16, they take off for the west coast to start a new life. There, one of the twins meets her soul mate, an older man who is a magician. The book is organized by chapters from the twins point of view and other chapters from the magician's point of view. The chapters also have dates on them because the story skips around. This can be a little confusing and I had to keep checking the date on the chapter. It also didn't help the flow of the story. Looking back on all the things that happened, there are still some things I wonder why the author bothered to put that in the story, (murder of the dance instructor). It was okay, not horrible, not great, so I gave it two stars.

Nicole says

Soul Mates follows the stories of two twin sisters, Savannah and Alannah, who are identical but have very different personalities. They leave home after their father murders their mother for adultery. The girls have a habit of writing the details of their lives and days in a journal, and both sisters read the other's entries. Intermittently, the story also follows the life of a magician, who we learn has an anger management problem and has struggled to keep it in check during his life. He meets Alannah, who he recruits as his magician's assistant, and they fall in love. The two head off to Las Vegas with the promise of a 10 year gig at Caesar's Palace, and Savannah comes along as well, unable to live apart from Alannah. Inevitably, the magician sees Savannah with another man, while thinking it is Alannah cheating on him, and tragedy strikes. Meanwhile, there is the mystery of the scary boy who haunts Alannah and Savannah, and the mystery unfolds near the end of the book with catastrophic results.

There are several different points of view in this book, and several storylines that are a little out there. However, the book held my attention and I breezed through it.

Diane Hernandez says

This novel compels you to keep reading with its non-stop suspense. I loved this entire book while I was reading it. However, once I finished and thought about a bit, I had some problems with one character's motivation. Overall, I would still recommend the novel to those who like romantic suspense.

I received this book in a LibraryThing early reviewer giveaway but that has not impacted my review.
