**Neutralis** M.M. Lindelo

Death follows her in every borough.

A fragile seventeen-year-old princess tries to find her parents' killer after discovering evidence in their bedroom.

While her brothers fight over the King's Ring, she and a friend travel to the poorer boroughs of Neutralis, an island divided by wealth and royal status, in search of justice.

When more people are reported dead and a cruel game called the Deathon is introduced, she's forced to seek refuge in Lower-Neutralis.

There, she goes through a trial of deadly events that force her to make grave decisions.

LOVE IT. In my opinion, its like a hybrid between The Hunger Games series and the Divergent series. I 100% recommend it!

Took me a long time to get to this. It was a pretty good read. Confusing at times but good.
