Boss Me Forever (An Alpha Male Romance) Eva Grayson

What if someone knew your deepest, darkest fantasies?

Admit it.

You've done it, too.

Kept a diary.

Written down your dirtiest, most private thoughts and fantasies.

Told the whole truth about someone you wanted more than anything in the world, and even planned out how it might be if they wanted you back.

The only difference is, my secret crush is my boss. My dark, smoldering, dominating, totally off-limits boss. And now he's found my diary. The secret book where I've written every nasty, sordid thought I've ever had about him.

But instead of firing me, he's doing something worse.

He's making me act them out.

Every last indecent, naughty sexual fantasy I've ever had. And it turns out that being bad never felt so good.

Angel says

Must read!!!

Wow great book!!!!...Couldn't put it down..you will fall in love with this book ..well written...easy too follow .Great love story !!!!

Orlanda Machado says

Actual Rating: 3.5 Stars

Sandra Flannery says

Disappointed!!!

I am extremely disappointed that only 23% of this book was the "Boss Me Forever" story. The rest of it was a disappointing story and a start to a different series. I paid all this money for this crap?? All the books ended in cliffhangers when, in fact, the two and a quarter books should have been one book. Never again will I waste my time or money on this author!

Jenn Kopitke says

Full review to come

Kerry Richardson says

This book ended at around 25%, the remaining 75 was another book by a different author. This was the final instalment of the Boss Me series and I've given all 3 books 3?. The books were short so they are quick reads. There wasn't anything special or memorable about the story or the characters. It was all just ok. A cliché of a boss and assistant getting together but it was a decent enough read and I would read this author again.

Stephani says

This "series" could've been combined into one book. Fast easy reads but nothing memorable. I don't feel like I even got to know the characters. Glad it was a freebie on Kindle Unlimited or I would be even more upset.

terry wilcox says

Great book

It's a great read ... Would recommend it to all who like bossy men ... Just didn't care for all the books you need to get ... Just put it in one book

Bianca says

It was dead on hilarious. Seriously. It made me cry twice, ok three times but still the story was the best. Emme made me feel like even if it is the most honest thing in the it still can have most impact in a relationship. I mean who doesn't want honesty and truth and shit. Ok fellas, one thing is to never never assume something until you ask your damned partner. That is just fucked up. Assuming that he is still hung up on his ex made the barren as fuck in their sex life, that is just a no no. Dane has this post issues with his brother, huh talk about relationship. For one he knows what he wants and when he does, he does nothing to stop at it. I'm really glad I read these books. It made me realize that it's not just me that has these diary-fantasy going on. Ha! The only difference is Emme got her wish come true. I give 5 million star to this bitch!!!

Susan says

The woman knows how to write a love scene!

I read the entire trilogy. While the three books were short, they are packed with engaging male POV musings. The kind of thoughts one loves their book boyfriends to have. The unfolding of the encounters between the two main characters is exciting even breathtaking! There was enough character development to explain the main characters' motivations and actions. Thanks for the bonus books by Ella London. She has some similar skills

Jaime says

2.5 stars

This ended at 28% the rest was another book from a different author. If i had bought this and not got it on Kindle Unlimited i would have been way more annoyed. An okay book series but nothing memorable.

Raj says

I was hoping that it would improve but I was left disappointed. The 1st and the 2nd book were okay and decided to continue but everything was okay, the love scenes were okay, the story flow, the writing style,etc.

I ended up dropping the novel at Chapter 3.

Angela V. Herndon says

Awesome Series!!

I really enjoyed reading about the budding relationship between Emme and Dane!! I was glad to read how nicely things turned out for them!! Awesome storyline and wonderful fantasies!! I highly recommend this series to anyone looking for an erotic adventure!! Great job, Eva!!!

Jo Smith says

I really enjoyed this whole series. I found it sexy and sassy. I really loved Emme, her vulnerability but her strength to believe in what was right and what she deserved. As for Dane, strong, hurt, emotionally broken and then slowly discovering his new feelings. Great read!

Kim Thebwordpoet says

BOSS ME FOREVER by Eva Grayson.

This is the third of the three books in this BOSS ME series; a SUPER romantic set of books centering around the main characters Emma and Dane.

This book starts a week after book two ended; where both Emma and Dane are thrown by Emma's declaration of love. Emma is mortified and Dane just goes back to work as usual as if they were never involved. Dane makes Emma go away with him, and after a night of passion, Emma knows she has to move on with her life. She starts looking for work and networking to find good connections. She also has a heart-to-heart with her brother and he finally decides to stop letting his past mistakes dictate him.

Dane now knows he must make a decision about Emma. On one hand, he is content with a friends-with-benefits arrangement. He doesn't know if he has it in him to give her a full relationship; personally and professionally. Once Dane realizes he's losing her altogether, he decides to stop holding on to his past and move forward.

In the end, Dane decides to win Emma's heart; and helps her professionally.
