**SHE SURVIVED THE CRASH...**

**THEY'LL MAKE HER WISH SHE HADN'T.**

Mira thought the crash into an alien planet was bad. Even worse was their police chasing her through a mall and shooting at her. Imprisonment for her and her shipmates' supposed crimes took the cake. But now they've sentenced her to a lifetime "fostering" with two enormous males who punish her, keep her subjugated and force her to call them "master." And they've given her a job--raising their three nieces, whom she inadvertently orphaned when her ship crashed.

Twin brothers Jakk and Gav'n already have their hands full trying to manage their three unruly and grieving nieces. The last thing they need is a rebellious human. Except they find she's more than worth the trouble. She may be unwilling, but she is beautiful, intelligent and best of all, bound to them for life.

## From Reader Review Her Alien Masters for online ebook

### Konny says

Her Alien Masters by Renee Rose is the first installment in the Captives of Pra'kir series. Mirella Janison and her 4 crew members crashed on the planet Pra'kir. She is ordered to tend to 3 kids who's mother was killed through their crash. And there are twin brothers- Jakk and Gav'n who'll be her masters. The brothers start her submission training immediately. A training that contains BDSM element. There is punishment and sex, lots of scorching hot sex. And in the end all 6 beings get their HEA. Swoon.

Her Alien Masters is part of a 5 book series with other authors. I liked this book and I rate it 4,5 Stars. Thank you Renee Rose!

### Sue Me says

Alien stories are one of my favorites. This one was really quite good, although I will need to read the others in the series to determine if the whole culture is one of D/s or just these few stories.

Mira Janison, an engineer, was on a small space ship that was hit by space debris and crashed onto the planet of Pra'Kir. Pra'Kir does not yet have space travel ability and as their ship was destroyed the 5 women have no way to get home. We meet Mira in a jail cell, being mistreated by her huge jailers. Her fate is yet undecided: death, life in prison, or rehabilitation to the ways of Pra'Kir. The Council of Nine has decided that each of the 5 women will be sent to 'foster' and recondition to the ways of Pra'Kir.

Mira is assigned to the home of one of the victims of the crash that left 3 children the wards of their twin uncles. Their uncles are sadly not equipped to handle three young girls.

The men, Jakk, a judge and Gav'n a police commissioner are big brawny alpha males with strong DOMINANT personalities. They demand that Mira be submissive and respond with all sentences ending with 'Master'. Hmmpf! The first thing they do when they get her home is strip her. Then spank her. Her life seems to be one increasingly masochistic non-consensual series of spankings, whippings, cannings, and failings. They can do all that in the name of reconditioning her to their world, but she has to ask if she wants to have sex with them. Makes me wonder about the future lives of the nieces, or is this something 'special' because she accidentally killed their sister.

The eldest girl is a belligerent teen, the middle one has not spoken a word since her mother was killed. Only the littlest one accepts Mira readily after she reads her a bedtime story. Even the middle child listens raptly to the story while the eldest pretends not to listen.

Mira's interaction with the children is one of the best parts of the story and brings it to life. The story with the brothers I found less enjoyable, but I will read the other stories and see if this is the way of their society or just the three of them. A well-written erotic story, worth your time to read.

### Cindy says

Her Alien Masters revolves around Mira, whose ship crash-landed on an alien planet, killing some citizens in the process. The humans have been “fostered” out to different people as a way for them to be watched, as well as live un-imprisoned. Mira is placed with twin males, Gav’n & Jakk, whom are raising the three daughters of their sister that was killed in the crash.

This novel was entertaining and had some good love scenes, but I wish the story was more fleshed out. It would have been nice to get to know the characters more, etc. I did enjoy the relationship Mira developed with the girls.

Although the third book in a series, it is unnecessary to have read any other books in the series to understand the plot line. Each book in the series is written by a different author, so it would be cool to read the other stories and see how they combine into a whole.

I received this book from NetGalley in exchange for an honest review.

I love when my favorite authors get together, create a world, and then take turns telling a different story from this world. Ms. Rose tells us the third story in the Captives of Pra’Kir series. While I suppose you could read it standalone, you shouldn’t. They have all been great so far. What I really loved about this book is the combination of vulnerability and pure alpha-ness, especially in Jakk. Jakk and Mira underestimate themselves in many ways, but desire the other despite all the obstacles. Seriously, if you love sexy alpha aliens, feisty women, some hot sex and discipline, with a really engaging story-- then read this book! 5 stars!!

### **Lisa Roberts says**

I loved this story, all about the hardship of being on another planet and possibly gaining a new family and being accepted. The twin brothers who have very important jobs in their community are very sexy and very Alpha and take control of Mira who is very determined to stay true to herself and force her into conditioning (submission) and train her .

I loved all the characters and the story just pulled you in. This is a hot steamy book and anyone would love to have Jakk and Gav’n as their caregivers.

I voluntarily read a readers copy of this book

3.5 Stars!

Mira, a human, and her ship mates crash on an alien planet. The Pra’kir people believe it was an attack on their planet and imprison all the women. The Council of Nine decided to have each woman fostered and trained. Brothers Jakk and Gav’n have been chosen to be Mira’s foster and masters. Since her ship caused the death of their sister, she will now be the new nanny for the three little girls as well as Jakk and Gav’n’s slave.

I have read a couple of books by Renee Rose and the first two I absolutely loved. Unfortunately, I seem to rate all her books based against those two and have not found any that I like just as much. This is still a good story and I am interested in reading the books of the other ship mates so I don't mean to be harsh on this book but I just didn't enjoy it as much as the others.

I think what held me back is the unfair circumstances Mira were in. Mira is being accused of an attack that is not her fault. She can no longer go back to earth, leaving her family behind and is stuck on this new planet where she is treated with hate by the people of Pra'kir and basically used as a sex slave by the brothers. Yes, she is attracted to the brothers and gets off on the spankings so why am I more critical about her punishment? I can't seem to get past the injustice of some of it when I don't think it's deserved.

If you want to spank just to spank, then say so. I think spanking in erotica books can be very hot but it seems the brothers used any excuse to punish Mira and made her feel more and more like a prisoner. Even then, it probably wouldn't bother me if the punishment was deserved and some of it was. She foolishly disregarded her safety in some cases, but that lack of communication was frustrating.

By the end of the book, you do see growth from all of them and I think if I got to see them treat her more as someone they loved and not the prisoner, I would have enjoyed this book more. ARC provided by Netgalley.

This is my first book from the series, and after reading this book I definitely want to read more. The story was well developed and contained the perfect blend of romance, discipline and sizzling hot sex. I liked all the characters but loved Jakk as he struggled to be accepted with his physical abnormality. His struggle to accept Mira's love added a nice touch to the story. Sci-Fi is not my favorite genre, but the author definitely made this story work.

I received an ARC of this book from the author.

### **? BookAddict ✍️ La Crimson Femme says**

For an erotic explosion, Ms. Rose is always dependable. I must confess, I did not read the blurb to this story. In fact, I did not even know that this series is written by different authors. All I saw was Ms. Rose's name so I picked it up. I am so glad I did. I really enjoyed this story more than I thought I would. The premise of this story is straightforward. Bad human kills Pra'kir by accident in what humans would call, vehicular manslaughter. This is usually jail time on Earth. On Pra'kir, there is real fear that the humans are here as the first wave to check them out and then bring forth war. Understandable since the Pra'kir are surprisingly low tech compared to humans in this world. So instead of jail time, Mira is looking at an execution. To stay the execution, there is an alternative and she is not sure it is a better choice. Die or be owned forever by two males that can demand her to do basically anything except for permanent bodily harm.

What made this story so good for me, other than the erotic sex, is the character relationships. Specifically, Mira working on building trust with this different species. This tale is more than an alien orgy. It is also a mending of a broken family into a whole one which touched me. The twist in how the orphaned nieces become Mira's responsibility is a clever one. I liked it. So angst filled! The twin males, Jakk and Gav'n, who take responsibility for Mira are dominants that would also make me wet and ready for screwing.

The erotic sex between these three is smoking hot and well done. I read every word and could visualize the scenes. The edgeplay mixed with a bit of domestic discipline really turned me on. Of course, the collar and (sex) slave status just made it that much hotter. Ms. Rose does a lovely job of dancing on the line of dub-con. Because whilst Mira's mouth may say "no no no", her wet pussy is screaming "put it in and ride me hard!" There is a bit of kinky play in here with spankings and strapping. The anal sex is delicious. This erotic menage romance is recommended to kinky readers who enjoy twin males finding their mate, taking her hard and often.

This was a fun book to read. It's an interesting series, with a different author writing each book, centered on the same storyline.

This is Mira's story, and it's touching and sweet, as well as hot and sexy. She's "fostered" into the home of Gavn and Jakk, sentenced to be the nanny to their 3 nieces, because her spaceship crash killed their mother. What follows is the story of their "training" her, and seeing their relationship develop. Gavn is sweet, but Jakk is hot, I fell for him! It's got romance, spanking, hot sex, and a sweet family relationship building. I really enjoyed this book!

### **Theresa says**

This was a wannabe non con Master/sex slave story. All of the punishments morphed into sexual reward for the slave. The alien brothers were insecure, the human was bratty, and they all acted out. It was an endless cycle and became tiresome. The relationship lacked respect and trust all the way around. Disappointingly, there wasn't any affection either. Towards the end, the MCs had internal thoughts leading in these directions but, unfortunately, they didn't physically express them through words and actions. The relationship development was really poor. The three MCs professed their love for each other but there wasn't a strong enough foundation for it to be believable.

### **Jan says**

I love this series. You know the book is good when it can make you cry for the characters. This one is about Mira. She is being fostered by Jakk and Gav'n. But not only does she being fostered but she is also a nanny to the three little girls that lost their mom from the crash. Mira can understand why she is falling so fast for her two "guardians" but still wants to know what has happened to the others from the crash. Jakk works for the magistrate and Gav'n is military police. Both can't believe their luck when they first see a picture of Mira. They look forward to "training" her. But Jakk is different from others on Pra'kir. His eyes. Can they all come together to find a happy ending and bring about a family.

OMG I am so thrilled and can't wait till the next in the series.

May the Force be with you! And a dry pair of panties too! This book is hotter than the burning end of a flaming fireball. (I would guess the whole thing is hot, but I'm not an astronomer.) Still, this third book in the Captives of Pra'kir series first, made me buy the other two books in the series, and second, well, that's just private.

Renee writes on heck of a spanking and submission romance as well as sci-fi. This book, part of a multi-author series, is smoking up the charts and proof positive that Renee is one of the hottest erotica authors out there. The premise of the story, as in all 5 of them, is that the 5 person ship, manned by all women, has crash landed on Pra'kir and killed some of its citizens. The decision is made by their high council that instead of killing the ladies, they will foster them out to society to rehabilitate them. So, each of these women get sent to some rather seductive caretakers.

Mira gets herself twins, a judge and a police commissioner. Jaxx and Gav'n, who are responsible for taking care of their 3 nieces now that their mother was killed by the ship. They are difficult and have medical issues, so Mira is to be their nanny. But not before she goes through conditioning to be sure she's a right fit. Of course, her conditioning involves lots of spankings and punishments, but I'll let you read all of that for yourself.

I loved Jaxx and Gav'n, Jaxx just wants someone to love him, defect and all. Gav'n wants whats best for everyone. It's another wonderful Renee Rose book.

## **Space Cowgirl says**

### **Don't It Make My Brown Eyes Blue??**

Mira?? doesn't realize her circumstances have changed for the better when two twin brothers are assigned to care for her, in lieu of her being put to death.!

When the spaceship she is an engineer on hits debris in orbit around the alien planet of Pra'kir and crashes onto a roadway, killing some of the aliens, the 6 human women are charged with murder. Even though it was an accident they are jailed and tried and convicted and imprisoned. The judge decides they will be sent to various high ranking men in order to be "reconditioned" .

Jakk and Gav'n are the two twin brothers. Both are professionals, Jakk is a judge, his brother is the police chief. They have custody of their sister's three daughters because she was one of the people killed by the spaceship.

It is poetic justice when Mira is forced to be the nanny of the girls and a play toy to the two brothers.

The society of this planet is very prejudiced and judgmental to say the least. The men are mostly deviants of one kind or another. It's a Mad, Mad world.

The human women have no hope of ever getting home to ? because the Pra'kir have no space travel as of yet. Jakk has one brown eye and one blue eye, so in the rigid society of Pra'kir, no woman will have him, they are actually afraid or disgusted by him. He will never have a mate.

Both men want a family and have shared a woman on occasion.

Now with Mira, they have their own woman, even though she's a human, both men are enthralled by her.

Mira is a smart mouth, and she gets punished by the men every day, usually spankings ??or sometimes canings or whippings. But afterwards, they make ? to her, because they do ?love her. It's sick, I know.....but hey, they're Aliens!

YEHAW! Ride em Bareback?, Cowgirl!?????

Her Alien Masters (Captives of Pra'kir Book 3) Kindle Edition  
by Renee Rose

I received a complimentary copy via NetGalley for review purposes.

Renee Rose is a unique and precious talent. As a critter on the Top end of the bedroom rather than the Bottom, I don't really see what other 'normal' women see in a lot of these dark romance stories. I'm the spanker, not the spankee. But Ms. Rose's works are wonderful! She is able to mix the deep emotions and a real story with the bedroom/kitchen/moving vehicle play, and she does it fantastically!

One of five of a Earth colony ship that crashes on an alien planet with no chance of ever getting home or even phoning there, Mira is 'fostered' out to brother Jakk (the 'misfit' judge) and his police chief brother, Gav'n and their three young nieces.

Jakk and Gav'n, and Mira have more than the typically pale and washed out master/slave romance relationship. There is also the building of a family, with the three young nieces. Some of the scenes involving the children with just Mira are the most touching and most beautifully written.

That's not to say the play and love scenes aren't steamy and scintillating! They are. This is a well-rounded, sexy, fun and romantic romance!

Five leather stars out of five.

## Becca says

Her Alien Masters is the third book in a series of five written by different authors. It is an idea that's been done before and, in this case, makes for some very interesting reading. The setting is the same, and each book takes place after the same event - a crash landing of five human women on the planet Pra'kir. It isn't necessary to read them in order as each is about a separate relationship.

I enjoyed this book more than the first one, largely because Renee Rose writes a tighter story with characters that are very likeable, and, of course, her signature sexy spanking scenes. Jakk and his brother Gav'n are much more approachable which, for me, makes their relationship with Mira very satisfying.

Poor Mira is put in a horribly awkward situation, having to care for children who just lost their mother in the crash that strands her there to begin with. I have a difficult time in general with the blame heaped on the humans by the society of Pra'kir, but this book helped explain the attitude a bit better. While Rowth's attitude in Binding Brinley struck me as trying to get as much as possible out of the situation for himself, with little to no regard for Brinley's feelings, Jakk and Gav'n appear to care more about Mira early on. I did find the immediate sexualization of their fostering relationship somewhat uncomfortable and confusing, particularly once the children are present, for the most part the situation felt more consensual. The resolution was very satisfying, causing me to cheer for the entire family.

I voluntarily reviewed an advance reader copy of this book.
