Zakeisha Smith says

When wrong feels so right!

Absolutely nothing about how this relationship started was right and I was going to stop reading when I saw the way it was going but the book was so good I couldn't stop reading! Ms. Jackson is a genius!! I want go into detail because I don't want to spoil this treat for anyone. Thank you for giving the readers a complete standalone novel with a lot pages. The storyline was different than the typical urban romance like always Ms. Jackson killed it!!!

Book junkie says

??????????

Definitely can't wait for the rest♥? Nicole never disappoints and always comes with that?? I can't stand Meeka, she's a horrible mother. Please don't keep us waiting long♥?

Linda Rich says

**One of the very best, can't put down, what's on the next page?! , OMG, no they didn't! books Ever!!
Wow! Just Wow!**

Seeing as Nicole Jackson is a phenomenal writer, and only gets better and better with every book I read, I probably shouldn't be surprised at how great this book is. I literally couldn't put it down! And I love the fact that it was well thought out, and well written. And she makes something so right out of something so wrong. And how Nicole incorporates previous characters into her books is so fun. And, and, and the list goes on. And, Just read it!

Porschea Jade says

She did it again!

Mannnnn! When I say that this book had me in my feelings, I couldn't help it. From page one to the end, my emotions were all over the place. I've loved every book I've ever picked up from Nicole Jackson and this one was no different! I absolutely loved Omari and Mya's relationship. Can't wait for your next book.

Shakeria Sharie says

EVERYTHING!

Diane Hawkins says

Same character

While I enjoy reading her stories and truly believe that she's a talented writer, the girls are all the same. They're beautiful with long hair and curvaceous bodies. They smoke weed and are all as ghetto as they come. Most have issues with their mothers and end up pregnant by men who are drug dealers or burglars. This one burgeoned into a rapper. Nicole Jackson is a master storyteller. I could never take that from her, but these stories are all the same. The girls are the same and it's getting redundant.

Kelley says

Wow

I'm honestly not surprised by the authors work I've personally loved everything she has published. This book. Had me questioning myself. Forgive me while I try not to give the book away. I thought I knew how I would feel about the characters and I was totally wrong. The person I thought I would feel sympathy for I felt none and in the end this was book was RIGHT even if it's wrong.

Wilki J says

I can't even put this book into summation as I usually do, lol. This is my first read by this author and though it took me a bit to get into, overall I felt she did a descent job of portraying this story. Mya and Omari's relationship is somewhat hard to swallow considering how they got together. I'm sure this type of scenario is plentiful in real life but it's not something I've experienced which made it unconventional when I factor in Mya's age. The author kept it real and gritty; the plot was reminiscent of many hood love stories but had its own unique flair considering the circumstances I previously hinted at. I must also mention the many fast paced scenes and the twist at the end really took me by surprise!

Omari and Mya showed great character development by the end of the book and the sub characters (though plentiful) added humor and aided in plot progression. The dialogue between characters was humorous and felt like you were talking to your home girl or bae. And those love scenes..whew chale. The epilogue was satisfying and left nothing unanswered concerning the main characters. Though not my usual read, I enjoyed it!

Shakeria Sharie says

Idk why the sample and the whole book are the same but this book was everything from beginning to end. I love Nicole Jackson!

Pam Smith says

I really loved this book!!!

Honestly this has to be my favorite book so far this year!!! The story line the characters the drama man the drama what a great book. I just want the author to know she did her thing with this book I haven't read a book this long in years and it felt good to just read one book without having to go get another book to compete the series. I loved the couple's in this book Omari and Mya went through so very much to be together and still over came the odds against them. Great job

K. Yvette says

Winning!!!

If you don't buy another book this year, make this your purchase. I have come to expect certain things from Nicole's books: excellent plots, vibrant characters with outrageous personality traits, fully fleshed out storylines, and a ton of raw comedy. When I say this one surpassed what I had imagined; I am not exaggerating.

Ms. Jackson is an OG author who has not succumbed to the pressures of the grimey literary world. Nor has she started churning out 14 book series that are released a year apart. Kudos Nicole for remaining true to YOUR craft and style. You have certainly lived up to my standards as well as a ton of other OG serious readers.

Welcome to the world of truly skilled pen wielding ninjas. Although you can enjoy any of her books alone, I highly recommend you start at the beginning of her catalog and treat yourself. Guarantee you won't be disappointed.

Ladii Zig says

Enjoyed

I really enjoyed this book. I didn't agree with everything that happen between Omari and Mya but at the end of the day the heart wants what the heart wants. That darn momma of hers just disgusted me to the core even before Mari and Mya got together, because the way she treated her wasn't necessary all because she couldn't keep and get a decent man. Overall even though what happened was wrong but I also felt like it was a learning lesson. Long but great read Nicole Jackson

Jamie says

Nocole always delivers.

Exactly what I expected, FIVE stars. What can I say?! The situation was messed up, but it is what it is. "Shit happens, Even When It's Wrong!"

akeyshia says

I need the rest!!!!!!

Oh baby this sample was everything. What in the world is going on here. I hope Mya and Omari end up together in the end because lines had been crossed. This sample was fiyah, now I need the rest of it.

Sharee Jackson says

The hottest author in the game!

Nicole has done it again! Thank heavens for long, standalone books! We're not worthy of your talent! None of your books are the same. Mya and Omari forever!
