In Love With The King Of Memphis DeeAnn

“No man is willing to do anything for a woman without wanting something in return.” That’s how Korday Young feels when she meets the King of Memphis Brandon “Brass” Moss, but what she doesn’t know is, he’s far from the average. Korday is a young, vibrant wedding planner/coordinator who thrives off her success. She buries herself in work to avoid thinking of the problems in life that haunt her. After her first run in with Brass, she finds herself wondering about the mystery man until he’s in one of her weddings. Their friendship blooms and she learns that Brass is more than meets the eye. She finds herself falling for him, but what happens when she finds herself in a predicament she can’t get out of?

Monica Waters is the older sister of Brass and the true definition of a go-getter. Being a full-time mother and author while being a part-time student is a challenge, but Monica has another responsibility that requires more work; her boyfriend, Kioni. Kioni is the apple of Moni’s eye and she will do anything for him, despite her family’s warnings of her deserving better. Kioni changes for the better, proving everyone wrong, but what is the motive behind this sudden change? Is it genuine or is there something he’s trying to cover up?

Sazmen Moss is the hot headed younger brother of Brass who lives life by his rules and only his. No one can tell him anything, not even his girlfriend Paisley Barbie. Paisley grows tired of Saz and his games and finds the strength to leave. Putting herself first becomes the number one priority in her life, so where does that leave Saz? Life starts taking a toll on him and he starts falling into a depression only Paisley can get him out of. Will she continue putting herself first? Or will she go back to square one?

?

Moni just cant catch a break... Bianca is a hot mess and she was blackmailing Saz and Kioni and was sleeping with both of them that was just hilarious... Paz just couldn't act right and lost Paisley but he had to work super hard to get back in her good graces... I love Korday for Brass she is such a sweet heart

Shaunphoo says

Yes to this!

I just love that Brandon! The way he is with Korday and her son so is cute, she need to go ahead and scoop him up. I see Saz is trying to do better and win Pai back, Idk why but I want Moni and Ki to work it out.

I am sooo glad I waited for part 2 and it was so worth the wait! I loved this 2 book series a spin-off would be pretty darn great just to see if Korie stayed clean, and if Karmen got her self together. &&& it would be awesome to see things unfold with Zee, Alex, Pisces & the kids! We also need to see into Pisces and Alex's life why was he at the lake house why was he able to spend so much time with Zee??

Great

This book was amazing can't wait for part 2.... I'm thirsty for it already I hope part 2 got some good secret spilling in it cause I need to know the wife of Zee's baby daddy. I also want to see something blossom between Korday and Brass. I also want Moni to find a man that's going to love her unconditionally.

Impressive

This was the first book I read by Dee Ann and I loved it! The storyline was engaging with plenty of plot twists! The cliffhanger made me want too cuss her out! I hated Kioni initially but felt more sympathetic as 8 kept reading! Mini needs to take some ownership because I feel she emasculated him at times. This book was a great read! Well done!

King of Memphis

I'm wondering am I the only one who wants Saz and Moni together? It just seems they will be the perfect couple. I like Pai but she's not right for him. That's just my opinion. I like the way Brass and Korday is taking it slow and getting to know each other. I didn't think Zee would be the way she was in her relationship with Pisces.

Freida says

Lawd....

So, before I get into that ending, let me say that I KNEW PISCES WAS SCANDALOUS!! How you got a whole...let me stop before I tell the book. Bianca nasty self got EXACTLY what she deserved, she was itching to catch that beat down!! Now on to Brass and Saz:

I'm glad to see Paisley held her ground. It would've been too easy for her to go back to Saz, she made him work for it! I felt her pain though, it ain't easy resisting that love though. Brass and KayK have a chance to be great if she let him in. I know he gonna show out in part 2 based on that ending that I'm not talking about!

Ki and Moni...hmm. Perfect example of not missing a good thing until it's gone. Monica played a role in that though, you can only push a person so far with that 'spoiled' mess. She still has some growing up to do. Overall, GREAT read!! I will be stalking Dee for part 2!!

Taz Will says

Not bad...

Not a bad read, I needed more from the relationships, seems like Brass was a great character but we didn't get much from their relationship. The stuff with Zee was over the top, I was hoping Pisces' would have something to bring to the story but nothing was there. Hopefully the next one will bring some action into play.

Interesting Read

I choose five stars for this book because really it was worth it. To see Saz as a dog redeeming himself was the highlight of this book. The characters were like-able and I really enjoyed reading about them. But that ending though wowww... I wonder who is at the door? I hope is Saz playing a sick joke on Korday and Brass.

Nadia Adams says

What the!!!!

I wonder who could that be, I hope this dies not end badly. Moni I'm glad she finally exposed her dad, the nerve of him. I glad Paisley finally decided to put herself first, and Zee done get herself into a sticky situation . Bianca was a trip!!!!

Vanessa Mcclain says

Definitely A Five Star Read

Dee Ann definitely came through. The author painted a perfect picture of the way Southern Kings get down. The book has just enough grit and grime to remind us of the definition of what a thug and a gentlemen truly is. This was not plot a heavy book, but it had an actual true to life feel that kept me wondering what would happen next. I can wait for part 2.

Sharon Thompson-Lloyd says

Very action packed

I loved this story. It certainly kept my interests. This story packs a punch and is thoroughly entertaining. I highly recommend this book to anyone who reads. This book has crazy characters. Some you relate to, but others you love to hate.
