*Sometimes the magic of love leads us to discover who we really are...*

Zim knows if anyone found out about his dirty fantasies involving other men, his family would disown him, so he keeps his forbidden desires buried. On the outside, he's a good son, a good student, a good future CEO of his family's pharmaceutical company. He's almost convinced himself that's all he is--until his twenty-first birthday brings him a present he could never have expected: a dragon that would unlock all his secrets--body, heart and mind—and help him discard the masks he's worn all his life.

Lowen's ability to glimpse the future sets him apart from other dragons, but he knows that if his powers came to light, his people would expect him to devote his life to the Gods, remaining celibate. Not something that sounds particularly fun--especially not when Lowen comes face to face with his fated mate and his world is turned on its head.

When visions warn him that being with Zim will lead to tragedy, Lowen is prepared to make any sacrifice necessary to save his mate—and their unborn children—to have a shot at a future together. Even if that means defying his people, Zim's parents, and destiny itself.

### Zee♥ says

This was a great addition to the Fires of Fate series. Lowen and Zim were a really sweet couple. I liked the way they supported each other and stayed true to themselves despite the expectations and pressure from their parents. I also enjoyed seeing the other dragons again with their mates and children.

### Rachel Emily says

Ahhhh, I'm so, so happy that she went back to this series and gave us such an amazing book for the last one in the series!

I love Ann-Katrin's dragons, I love the world building and I love that we got to see so many of the previous couples in this series. And I just loved reading about Lowen and Zim - they really were perfect for each other. I loved their chemistry, their instant connection and how they already thought of the other as their's, and I loved their love story.

This book made me so happy!

**3.5 Stars** ~ I can't believe I waited so long before diving into this fifth installment of 'Fires of Fate', a wonderful series filled with dragons, omegas, mpregs, rock bands, great worldbuilding, and fascinating characters. 'The Dragon's Perfect Omega' gives me Lowen's story and he intrigued me from the first moment I met him with his band mates, Zed and Finn. I couldn't wait to see what the author would bring me for his happy ever after.

*"I couldn't be gay. Especially not for dragons. If there was one thing my family hated more than dragons, it was omegas and the men who were into them. They could never know that I fantasized about letting dragons do things to me that other men did to omegas. No, no one could ever know."*

The author has really placed some challenges on Zim and Lowen. Zim is an only child to a big pharmaceutical company owner and his wife. Zim has spent his entire life showing his parents what they expect to see and trying to ignore their homophobia and severe specism. He doesn't even know if he's gay because he's too terrified to do anything about his feelings. Zim has a very rigid plan for his life and he's a bit of a control freak, although I think all of that stems from suppressing his inner self for his whole life.

### Diane Dannenfeldt says

I really enjoy this series with the dragons finding their fated mates. The kids are all so adorable, well except Adrian's twins, boy are they a couple of little hellions.

## Kevin says

Unhappy man who secretly lusts after men meets an alpha dragon shifter and it's instant lust for both. Some secrets are revealed, and both sets of parents are less than supportive.

Typos: sentence fragments after quotes ("There you are!" She said.), misused caps (Gods), missing words (take seat), inconsistent end quote punctuation (". and ."), too for to, poured for pored, misused commas.

### Choices

This story was fairly interesting. Zim wanted and tried to be the son his parents wanted. On his birthday he attends a concert that resulted in him making choices for himself and not his parents. Now he is worried what parents may think and he will also find out more about himself.

## Viz says

Its' an average story. The writing is good as well as the concept where there are dragon shifter & omega & Humans discriminate the supernaturals. The love story itself is average.

"You're emoting all over the place. Most people keep their emotions contained, well aside from my friend Finn anyway, but you're coloring over the lines. It goes everywhere."

I huffed. "You make me sound like I'm littering."

i enjoyed this story. Zim and Lowen were very sweet together. They supported each other through out the story.

### Loved the story

I like how Lowen fought to keep his own individuality. Not even the handmaid of the gods has all the answers. Though I thought she was a bit too self entitled. I was hoping that Zim could step into the company his parents run and stop the pill that dragons have to take. But maybe that is in another story. So good. I want more!!

I read this book about 2 weeks ago, and to be honest have forgotten a few finer plot points but I did enjoy this dragon themed mpreg. I was on a mpreg kick for a while, reading several books with this theme. This one did stand out for the dragons. I loved the way the dragons were portrayed. Lowen and Zim were a nice couple and I like it when the omega in the couple pairing is not a wimp. I was happily surprised that Zim had a little back bone when he dealt with his manipulative parents. The supporting characters were interesting, and I didn't realize til I looked back on amazon that this book was actually part of a series. I will probably go back and read the others.

I'm so happy that this book was added to the series, but I felt like I had a lot more questions by the end of this book. I felt like there was something missing, but I'm not sure what. Anyway lowen was so pure and selfless and supported Zim so much it made my heart melt.
