Wylie Judd, retired Deputy U.S. Marshal among other things, is bored with his retirement and with living in his daughter's home. When his grandson, Hunter Mason, takes off from home after a fight with his step-father, Martin Nelson, Judd sees this as his way to get back out on the back of a horse.

He follows Hunter through Colorado, Wyoming, Idaho, and California before catching up with him in Utah. On the way, he discovers an old nemesis and an old flame. He deals with a trio of brothers who have sworn to kill him for his killing of their fourth brother.

Eventually, he saves Hunter's life and the lives of three of his companions, then starts on the way home with Hunter. They save the life of a young woman, Madalyn Conner, and escort her to Pueblo, Colorado.

Along the way, they're ambushed by Martin and some men he hired. Judd is wounded but manages to kill Martin and several of the other men. Once back home, Hunter tells his mother he's going back to Pueblo to be with Madalyn and Judd says he's going to Denver to be with his old flame. Hunter invites his mother to come stay with them.

I have been an avid fan of Mr. Winkle's story telling for some time and this story is definitely one of his very best. There is never a dull moment throughout the entire book and his uncanny rendition of our old western folklore and adventures never ceases to amaze me. Judd certainly has an uncanny ability to always provide the reader with the most innovative action I have ever encountered. Never a dull moment with Judd in charge!

No doubt about this book being a five star masterpiece, as it was excitement from beginning to end. I was definitely impressed with the way Judd handled each and every pressing situation. This story was definitely impressive and the characters never wavered, regardless of the situation. Too, the storylines were very descriptive and the entire story was filled with family-friendly episodes that really touches ones soul.

This story certainly grabs the reader immediately and there is never a dull moment within the entire book. I was definitely mesmerized by the author's talent, as he never faltered with the descriptive adventures from beginning to end.

Most definitely recommend this book to those who enjoy a very heartwarming and entertaining episodes of our real old western adventures and folklore. Judds Journey

The author created a good place then filled it with outlaws. The story was done pretty much straight forward and it was all action and adventure.

JUDD WILEY'S SEARCH FOR HUNTER MASON

Wiley Judd, retired U.S. Marshal living with his daughter Cora and son-in-law Martin and his grandson Hunter Mason, whose left home because of an argument he had with his stepfather Martin about his trust fund that Judd had set aside for him so that he attend college back east. Cora, Judd's daughter feared the worse that the money was gone, siphoned out by Martin who most likely gambled it away. Per Cora whose Judd's only child Martin took off for New Orleans...in those days the gambling mecca of those days. This is a great action packed adventure of an older man who went looking for his grandson. He meets a lot of different people on the trail some good and some not so good. Never let it be said because there's snow in the mountains that everything else has slowed down...Well yeah why not the bones aren't as flexible as they were four years ago, just takes a while until things warm up so do those bones flexible flexing....now try and outdraw me..don't think so bub. Anyway you won't be disappointed in the outcome of this great ride along with Judd Wiley and his grandson Hunter Mason who looks like a younger Judd Wiley ride the river.
