The Found Warrior Taylor Hart

When you find that one person who connects you to the world, you become someone different, someone better. When that one person is ripped away from you, what happens to you then?

When Blaine Hammerton, Navy SEAL, is notified that his father died of a heart attack, he finds himself in Brooklyn, shaking hands with people he's never met and accepting a random key from one of his father's friends. As he finds himself lost in a mental fog on the streets of Manhattan, he never expects to walk into an art gallery, and he really never expects to discover a beautiful woman...having a breakdown.

Breakdown? Elena Gates doesn't have breakdowns! Just because she threw a bottle of water at her prize canvas doesn't mean she was coming apart. The know-it-all man in uniform has no right to be in her gallery! Giving him a piece of her mind will be her pleasure ... until she discovers his father recently passed. The sadness in his ice blue eyes leads her to do something she's never even considered before--ask a man over for pancakes at midnight.

Seconds, minutes, hours, how long does it take to fall in love? Blaine wonders how quickly his heart could be hers as he turns the city upside down with Elena seeking the lock for his key, cooking meals for her at her apartment, and watching her paint.

When the call comes and it's time for Blaine to get back to being a real life hero, Elena can't believe she's become that woman--the one who waits for emails and wonders if the man she loves is dead or alive.

Blaine & Eleana

Wow what a beautiful love story. This book had me on the edge of my seat - yes I even cried! Lost but found was truly an emotional and sweet love story! Talk about love at first sight. Fell in love with them both from the beginning. Amazing book - couldn't put it down!?

The Foundation Warrior

Romeo and Juliet 2.0 - Blaine is a Navy SEAL on leave for his father's funeral. Wondering aimlessly through the streets of New York, dreading going home, he stumbles upon Elena on the precipice of a breakdown. Their connection is immediate and perfect. But duty calls, life gets disrupted, and misunderstandings happen. Romance with a side of suspense kept me turning pages.

Loved this book except SEALs are not soldiers. They are special sailors. Once or twice from Elena would have been a joke, but the SEAL would not have used soldier in any context about him. (Sorry for the rant. I am a Navy veteran).

Romance With A Twist

This is a beautiful and unexpected romance with twist and adventurous romance that will definitely keep you on the edge of your seat as they journey towards love.

I have loved Taylor's books! But this one was just meh. Likable characters in Blaine and Elena who meet and have instant chemistry. Some cute moments and pretty good story line. But for a Navy SEAL, is he a soldier or a sailor? I don't know much about military and I don't pretend to know either but I think he would be a sailor.

Good

I enjoyed the unexpected match. Like the "chemistry" between the two main characters. Would have liked a bit more detail of what Elena did with the gallery, her work, her father, but all in all a decent read.

Teya Peck says

I love Romeo and Juliet feel to this story. The beginning was a little odd and I felt separated from the story. It seemed like a lot of telling not showing. I love how they found each other. It has intense feelings of love throughout the whole book. I kept waiting for the shoe to drop or something. It did and then came back even more intense. Wow!

All of the stars

This is BY FAR my favorite of the navy seal romances I've read, and I've read a good chunk of them at this point. I'm absolutely in love with the characters, and even though I read it on kindle unlimited I will be buying this one because IM SO STINKING IN LOVE WITH IT. I loved the steam and the deep relationship these characters have, and I freaking love the way they take care of each other and compliment each other and work so well together.

Most sweet clean romance books leave me with a smile on my face, but this one... it made me want to be a better writer so I can leave my readers feeling the way I feel right now.

Taylor Hart can have every single star there is for this one, because I think I just found my new favorite book.

Well darn, now I'm just sitting here wishing I wrote this book, because holy crap was it fantastic. I have all of the feels, and I give this book all of the stars.

For real, there was religion in it and it didn't even feel cheesy. I bought the religion, and I NEVER buy the religion.

Alright, I'll stop ranting and go read it again, because this is a book that deserves to be read again and again. My day has been both ruined and made. You deserve all of the applause, Taylor Hart. All of them.

Heather Green says

Her best book ever! I've read all of Hart's books and this is by far her best work yet. There was so much depth and emotion. I loved the MC's. Even though they only knew each other 10 days, their relationship progressed really well and I believed they loved each other after such a short time. The characters talked

about being in their own little bubble for 10 days. That's how I felt reading it. The only reason I didn't give it a 5 was because it lost a little momentum when they found each other again. The MC's personalities seemed changed somewhat. Maybe that was on purpose because their experiences changed them? Plus, there were a few things I wondered about. How did the bad guy know where to find Elena? The SEAL group kept that info 'need to know'. And the shoot out scene on the airplane...I'm not sure it would have gone down like that. Aren't there laws that need to be followed? And what about the repercussions of taking out a member of the Mexican drug cartel? All in all, soooo sweet and fun. It was clean. No language. No sex. Even though they were in a position that anything could have gone intimacy wise, the author kept it above board and it wasn't awkward. I will read this one again!

Sweet Suspenseful Romance

Elena is an amazing artist that quickly falls for Blaine, a Navy SEAL about to leave again after his dad died. Misunderstandings and terror ensue until the happy ending!

He comes to an art gallery and as he looks in the window, he sees a woman having a breakdown. He enters the gallery and begins to talk with the woman. Outstanding Book

I would give 10 stars as I think it is the best in the series and it would be in top three out of over 300 books I've read this year!

Pat Rathmann says

GREAT LOVE STORY

This author has written a great first story for this Navy Seal series. She has written a very heartfelt story about two strangers who meet and form an immediate romantic attachment. She gets into the very heart and soul of these two main characters and also described who they survive disappointment, hurt and anger. Amazing adventure and love story.

Elena and Blaine

Elena was having a meltdown in her art gallery when a Navy SEAL walked up to her and tried to calm her down.

Blaine, home on leave for his father's funeral, was walking around New York in a daze. When he saw a beautiful woman with fiery red hair having what looked like a mental breakdown he went in through the slightly ajar door and tried to calm her down.

For the next ten days the two did everything together and they fell in love and flew to Vegas to get married. But Blaine knew he'd be going back to war and wanted to wait, much to Elena's consternation. Two weeks later, Elena got a Dear Jane email.
