Everything man needs to know about sex, why do you need to go through trial and error when you can get high value knowledge from this book.

This book is for anyone who wants to improve their sex life

Brandon Nankivell says

I will never see things the same way again. This is a wake-up call to all the men out there. GROW A PAIR and realize sex is so much more than just getting off within 10 minutes by "going through the motions".

Biggest lesson learnt is that psychological stimulation is so much more important than physical stimulation.

Zandelicious says

Very informative book, on the emphasize on psychology part of the mind. And awesome DEVI framework in piecing everything together. However i feel that some part of the thinking, and mindset's might be up for individual discretion to adopt

Lucas Hite says

This book will clear your mind of toxic social conditioning.

I highly recommend all men read this book.

It has tremendously helped my sex life.

And it can help yours.

PJ says

Works as advertised.

Jevgenij says

There are some interesting ideas (mostly regarding domination), but too much emphasis is put on dirty talk and the section on physical technique is very poor.

I like Daniel's ideas of DEVI (Dominance, Emotion, Variety, and Immersion), but the two-star rating is because: (a) the book is replete with ego and I-fucked-the-shit-out-of-her talks, and I think the message could have been delivered without this style, and (b) there is a lot of interesting claims with no reference at all to any scientific studies that could support these claims.

SilverReader says

Helpful and really changes the field when it comes to sex.
Hope i had found it sooner

Craig says

Best book on the power of sex and how you can improve the psychological and physical things you do to make sex more fun and interesting.

Dan Brennan says

An excellent book for maximizing your sexual potential but some of the concepts are a little abstract which will make it more challenging for beginners to implement.

Rainbowheart says

Disgustingly misogynistic. Beware, this is nothing but Red Pill/PUA propaganda.

A sample of the contents....

"Sexually healthy women all want dominant sex; at times they all want to be treated like a piece of meat in the bedroom, to be violated and used like a slut. They all want you to rip their clothes off over their token objections, to talk dirty to them, and to be helpless as you make them cum over and over again. There is nothing wrong with this; in fact, it is a very natural and beautiful thing."

"If she waffles or gives token resistance, override her. Give her the sexual pleasure that she lacks the courage to take on her own initiative. Pay no heed to her bad social conditioning, and get in touch with her deepest desires as a natural woman."

"In the rape fantasy, you sneak up behind her when she is not expecting it, put a hand over her mouth and force her clothes off. She will know that it is you by the sound of your voice. You overcome her struggles and protests and force yourself into her pussy. After you are done with her, you leave her for a few minutes to enhance the negative emotions she feels. You then come back, and are your normal affectionate self again."

"Women are biologically programmed to want to be impregnated by an alpha male. More than anything, this is her evolutionary function in life, to take your cum inside her and bear your offspring. Despite what her logical mind tells her, on a deeper level she will always want this. Telling her that you are going to get her pregnant with your babies while you are having sex will excite her like you would not believe."

Rose has done a great job of revealing the core psychological aspects of masterful sex and his book should rightfully be considered a foundational tome on the subject.

He fails, however, in providing a deeper understanding of the biological aspects of masterful sex, either because he considers the topic too perused or is uninterested in the finer aspects of how the female body works.

Either way, if you, like me, care for maximally good sex lives for yourself and your partners, you will get more than your money's worth with this book, so go ahead and get yourself a copy.
