Burning Hunger Tawny Taylor

Private detective Brea Maguire is on her first case, tracking down a stolen statue-the Sacred Triad-before it's buried in the black market. Unfortunately today-Friday the Thirteenth-isn't her day. Being kidnapped from the mall by a pair of bizarre guys who put the Chippendales to shame didn't figure into her new career plans. But Dayne and Marek have their own problems.

Dayne, forced into a blood-bond by the king with Marek, his sworn enemy, sees his chance to exact vengeance for his family's slaughter slip away. For Marek, the blood-bond with Dayne may be too little, too late. His enemies have learned the secret of the Triad, which holds the only hope for a cure for his dying brother, the king.

The race to find the Triad is on. Marek can help Brea find the Triad and use it to save his brother's life, but only if she too enters the blood-bond.

The burning hunger that accompanies it is a major complication none of them anticipated. Two men, one woman and a driving sexual hunger that none can resist, in a race against time to save one man-or destroy thousands.

Reader Advisory: Contains a scene of male/male sexual interaction.

Julianna says

It was ok, not my favorite but i would probably try another book from the author.

Kerrin says

I don't expect much of a story line with erotic novels sometimes (I'm certainly not opposed to plenty of sex scenes either) but I was hoping for a bit of a good mystery here from the way the synopsis read. Unfortunately for me, it didn't happen. Shame too cause I was looking forward to reading this.

I have nothing against a good erotic ,sex filled book , but I have to enjoy the storyline and connect to the characters which didn't happen with Dayne , Marek & Brea's escapades .

Beret Brenckman says

should have followed my own advice above - other stories were free on amazon and I hated them - why did I think I wanted this one? It was FREE

Pansy says

I read this out of order but it didn't seem to matter. This really wouldn't not have added any more if I had read it before book 2, but I am glad I went back and found it in the mountain. It too was worth the read.

Choppy...the charters had no real depth
